- breastfeeding, pediatric advice, 211-221
 - in the Philippines, 1365-1375
- Britain, 393-404
 - social inequities and self-reported morbidity, 267-274
 - mortality among Irish migrants, 577-584
- Bulgaria, and health inequities, 837-846

- caesarean section, 203-210
- Canada, the geographical distribution of diabetes, 129-139
 - drug information, 153-157
 - drug makers and drug regulators, 1257-1263
 - health insurance system, 1327-1336
- cancer, self concept, 115-128
 - and stress among physicians and nurses, 1013-1022
 - and lifestyle among ambulatory patients, 1159-1168
 - and psychological profiles of women attending breast screening tests, 1177-1185
 - astrocytoma, 1295-1299
- childbirth, and postpartum care, 171-219
- children, adjustment to pain and family coping, 51-59
 - family coping with cystic fibrosis, 159-164
 - and AIDS in Africa, 671-680
 - and drug usage, 1043-1050
- China, abortion, 445-453

- community pharmacy, 603-607, 1277-1280
- contraceptive behaviour, in China, 441-453
 - and AIDS risk in Rwanda, 1023-1028
- Cystic Fibrosis, and family functioning, 159-164
- developing countries, urbanization and health, 507-514
- diabetes, distribution in Canada, 129-139
 - and health education, 1135-1141
- diarrhoeal disease, in Ethiopia, 1245-1249
- doctor-patient relationship, 565-576
 - in Israel, 719-727
 - 1035-1041
 - psychosocial concerns, 1337-1345
- elderly, subjective health rating after falls, 485-490
 - health services in sub-Saharan Africa, 661-665
 - caring for, 763-761
 - and life satisfaction, 1003-1011
 - ambulatory medical care, 1085-1092
 - patient beliefs, 1377-1385
- emergency services, utilization rates, 557-563
- epidemiological research, in developing countries, 507-514
- epidemiology, blood pressure in the Amazonian Basin, 593-601
- epilepsy, and quality of life, 165-170
- episiotomy, in New Mexico, 191-201
- equity, Portuguese health policy objectives, 91-94
 - and health in Europe, 223-420
 - the value of international comparison, 879-889
 - and health in Bulgaria, 837-846
 - and health in Hungary, 847-857
 - and health in Poland, 859-866
 - and health care in New York, 1219-1227
- Ethiopia, hospital utilization, 101-114
 - treatment of diarrhoea, 1245-1249
- family coping, and cystic fibrosis, 159-164
- fibromyalgia, and patient feelings, 941-947
- Finland, health and social inequities, 257-265
- France, social inequities, self-reported morbidity, 267-274
- gender, and medication use, 971-978
- Germany, alternative health systems, 43-50
 - health and social inequities, 249-256
- Ghana, community care and hospital attendance, 711-718
- haemophilia, and AIDS, 73-79
- hazardous wastes, and cancer, 81-90
- head injury, social work practice, 5-11
- health beliefs, patient culture in treatment care, 1295-1299
 - among elderly patients, 1377-1385
- health care, 13-26
 - informal contacts in Poland, 95-96
 - and Italian psychiatric reform, 815-822

and smoking-related demands in New York, 1228-1229
1247-1248

health development, 475-488

health economics, 475-488

regulation and cross-border among Singapore related groups,
1115-1116

top replacement, 1207-1210

and health insurance systems, 1125-1126

- Kenya, and oral rehydration therapy, 979-987
- lay practice, and childbirth, 171-219
- Liberia, verbal autopsy, 585-591
- malaria, in Africa, 667-669
- Malta, health inequities, 313-318
- maternal and child health, economic development strategies, 649-659
 - and vaccination in the Philippines, 1265-1270
 - smoking in pregnancy, 1271-1275
- medical ideology, 913-923
- medical students, tolerance for ambiguity, 619-624
- mental health, unemployment, 461-465
 - in South Africa, 501-505
 - and mortality, 527-536
 - and help-seeking behaviour, 989-995
 - an Italian project, 1067-1071
 - among Vietnamese refugees, 1251-1256
 - among Mexican American young adult, 1313-1319
 - race and socio-economic status, 1321-1326
- migration, of health manpower in sub-Saharan Africa, 631-637
- mortality, socio-economic differences in the Netherlands 1950-1984, 141-152
 - psychological disorder, 527-536
 - heart disease and social class, 545-550
 - among Irish immigrants in the U.K., 577-584
- near-death experience, 933-939
- Netherlands, cause-specific mortality, 141-152
 - health inequities, 319-329
 - belief in alternative medicines by GPs, 625-626
- New Mexico, and childbirth practices, 191-201
- New Zealand, spacial patterns of GP attendance, 773-781
- Nicaragua, mental health programmes, 1067-1071
- Nigeria, violence and health, 1075-1084
 - substance abuse, 699-704
- Norway, health inequities, 331-342
 - unemployment and health, 1301-1311
- nutrition status, among mothers and children in Papua New Guinea, 61-68
 - in Jordan, 783-789
- occupational health, 421-432
 - unemployment, 1301-1311
- onchocerciasis, in Liberia, 585-591
- oral rehydration therapy, in Kenya, 979-987
- organ donation, 791-800
 - among black Americans, 1229-1232
- orphanhood, and AIDS, 671-690
- pain, emotional adjustment in children, 51-59
 - physicians ratings, 69-72
- patient attractiveness, medical perceptions, 69-72

- Papua New Guinea, cash cropping and nutritional status, 61-68
- Peru, birthweight, 491-500
- pharmaceutical information, comparison of brand and generic companies, 153-157
 - and usage rates by specialists, 467-476
 - in Sri Lanka, 737-741
 - and drug prescriptions in the Yemen, 823-828
- pharmaceutical deliveries, 1277-1280
- pharmaceutical regulation, in Canada, 1257-1263
- Philippines, childhood vaccination, 1265-1270
 - breastfeeding trends, 1365-1375
- Poland, health care services, 95-96
 - health inequities, 343-350, 859-866
- Polynesia, and stress, 729-736
- Portugal, equity objectives in health policy, 91-94
- primary care, the doctor-patient relationship, 565-576
 - patterns of attendance in New Zealand, 773-781
- prostitution, and HIV prevention programmes, 609-618
- psychology, and health in Africa, 705-710
 - and the community in South Africa, 1093-1102
